The Bureau of Statistics and Information Being Considered by Prominent People.

The Roz Industry in Teras Bound to come to the Front-Good Reports From the West-Notes-

The suggestion made by Col. W. L. Black to the interstate cattlemen's conrention which met in Fort Worth March to have the government establish a bureau of statistics and information of the cattle interests of the United States. is being seriously considered by the exgotives of a number of states, and is meeting with general favor. Letters on the subject from Secretary Rusk, Senators Coke and Vest and Governor Thayer Nebraska have heretofore been pubshed in THE GAZETTE, and the following from the governors of states to Col. mank are produced to show the interest being taken in the maiter. The ites of Col. Black is a practical one, and there are reasons to believe that it will becarried out.

RAISE HOGS.

Fort Worth Will Furnish a Market for All

Raised in Texas. Work is now progressing on the pork packing house at the stockyards, and when it is completed it will be the most e Southwest. It will furnish a market from the very start for from 800 to 1500 ogs daily the year round, which means s yearly consumption of from 240,000 to 50,000 hogs per year, more than are marketed from the entire state of Texas now in a year's time. This fact should bow to the stockman the importance that the swine industry in Texas is going attain. A market is to be created at Fort Worth that will demand all the logs the farmers will raise, and prices as be had here equal, if not better, than is paid in St. Louis, Kansas City, or Chicago, and the om Texas to those points on hog risk ducts will be saved to hog raisers. he men are now buying hogs in Texas, ipping them to St. Louis, Kansas City, and Mexico, and are realizing a good pa a them after paying freight charges. logs are brought here at three cents per cound and shipped to St. Louis, where they are sold at four and one-fourth and our and one-half cents per pound. This, under the order of things, will be changed, and the hog raiser will be enabled to obtain in Texas from one and one-fourth to one and one-half cents more per pound on his hogs than he can low sell them for. The profit on hogs at even four cents is simply enormous, when the short time necessary to mature them is considered, and if farmers in the North, where hog cholera rages, can make money on them at that figure, what can be done in Texas, where

Ellis Richardson of Baird, who is engaged in raising blooded cattle was in the sty yesterday and brought a good report the condition of cattle generally in his ection. The grass he said was as good as he ever saw it, and entitle were flour-"My white face cattle, (Herefords) "

Ranch Sale.

Cass Edwards has purchased the interin the Cabakia ranch and cattle, sted at the Four Lakes on the Plains of the two Gholsons and Estes, and will take charge of the same on the 15th inst. Estas, who was manager of the ranch, will retire and Edwards will put Bill Petry in charge. The price paid by Edwards for the three interests was not made public.

Catile transactions have been dull in this section this week-in fact no sale to amount to anything has been reported of my kind of stock.

The hog and hominy question has won, and from now on Texas will raise and ture her own bacon, and besides shipsteen to other markets.

COME TO GRIEF.

A Gang of Scorzia Moonshiners Arrested Who ". Had Sworn to Run Informers Out of the Country-Incendiarism.

ATTANTA, GA., May 9 .- The "honest man's protector and friend' has come to grief, This will be remembered as a remarkable gang of men sworn to burn and kill meonshine informers, the doings of which were exposed by newspapers last March. Jack Lansdown was captain; David Wheeler, first lieutenant; George Fields, second lieutenant, and Joe Richards, secretary and treasurer. Each member swore to protect each other in putting down reporting on moonshiners. After several houses had been burned George Coase, one of the gang, was caught and im-prisoned. Coffee turned state's evidence, led the officers to the gang's rendezvous and handed over their disguises and constitution and by-laws, together with the names of the whole band, and confessed that the gang did the burnings. This brought matters to a crisis. Arrests of the principal parfies followed, and their trial is now in progress. There are seventeen prisoners in all. Friday John Forrester was convicted and sentenced to the penitentiary. On the next day Jack Lansdown was convicted. Seaburn Lansdown will plead gilty. The case will be taken up and pushed through a trial as rapidly as possible. The prime object of the moonshiners was to drive from the country all persons who interfered in any way with the manufacture of and traffic in blockade whisky, and they made up their

UTICA, N. Y., May 9 .- The number of imbeelles found in the ruins of the poorhouse in Preston, Chenango county, already numbers thirteen. The impression is growing that the loss of life ex_ ceeds the first estimate. In the building were many very aged men and women, some of whom had not left their beds for months, and who from weakness of mind were incapable. A number of others, finding their way out of the building in the midst of the confusion and excitement, are now believed to have perished. One of the insane women was captured near Plymouth, some twelve miles dis tant, last night. She was half clad and bewailed the loss of her home. One imbecile was scared into her senses by the fire, and escaped from the burning room by a window, reached the roof and crawled along the ridge board and rousent the keeper's wife from slumber, thus saving her life.

the wind has been blowing strong from the southeast and threatening clouds overhaug. There has been some rain, but the greatest bother is the promise of more rain. Farmers say the recent cyclone, hall and heavy rains have so badly damaged crops as to necessitate replant ing, but those who deem this measure necessary are going at the work with a Corn that has weathered the storms looks pale, but it is believed close attention will bring it out.

Capt. S. A. Shorrtidge, for about thirteen years a resident of Terrell, has drove down his peg in Fort Worth, where he expects to do business in the future. Terrell's loss is Fort Worth's gain.

Terrell board of trade is gradually working up several enterprises, but the pest, probably, is ore to bring to our midst a large list of enterprising, industrious farmers. This scheme will be heard of later on .
